

Is Broccoli

sexy?

If in a school with 400 students, for one year, meat is not consumed once a week, one could save an area equivalent to

65 football fields that would not need to be planted with soy.

Participate in this survey to support the idea of a **Veggie Monday!**

To produce one schnitzel, approximately

5 bathtubs of water are needed.

For every Veggie Monday day, you save 9kg of CO₂ - equivalent to what is emitted during a

45 km

drive with a gasoline car.

600 g

of meat per week is recommended for a healthy diet; here in Luxembourg, we currently consume three times that amount on average.
